USER NAME AND PASSWORD:
When an agency enrolled user account is created in Pay.gov, the application will e-mail the User Name to be used when logging in to the Pay.gov application. Pay.gov customer service must be contacted in order for the user to be provided with the initial password. A Self-Enrolled user is provided their user account and they create their own password as part of the self-enrollment process. The password, which is under the user's sole control, provides protection for the user and us. After initially logging on to the system, the Agency Enrolled user is immediately required to change the password in order that it will be known only by the user. The pattern of the User Name may be known by others and the User Name is displayed on the screen when entered, but the password is not displayed and not known by anyone other than the user. After initial logon, all Agency Enrolled Pay.gov system users must access the system at least once every ninety - (90) day's to remain active.

Self Enrollment

Welcome to the Pay.gov self-enrollment process.
PUBLIC FORMS are freely available to everyone. It is not necessary to self-enroll to make a payment using a Public Form. However, by self-enrolling with Pay.gov, you can save your submitted forms for later viewing/retrieval. Self-enrollment also enables you to schedule recurring payments. For a list of Public Forms, use the Find Forms tool in the left-hand navigation. If you require access to a NON-PUBLIC FORM, do not self-enroll. To obtain access to a Non-Public Form, please contact and enroll with the associated government agency.
